What to expect at IMPC 2016?

TRANSFORMATIONAL TECHNICAL PROGRAM

FOUR-DAY CONGRESS

DAILY THEMED PLENARIES

16 TECHNICAL TOPICS + 8 SHORT COURSES + INDUSTRIAL TOURS

600 ORAL PRESENTATIONS

150 POSTERS

70 EXHIBITORS

1000 PARTICIPANTS

VAST NETWORKING
& BUSINESS OPPORTUNITIES

NETWORK WITH PEERS AND PARTNERS

Registration opens early February 2016

Plan to attend IMPC 2016, September 11-15, Québec, Canada

The Canadian Institute of Mining, Metallurgy and Petroleum (CIM) is honoured to be hosting the **XXVIII International Mineral Processing Congress (IMPC)** in Québec City, Québec, Canada. In September 2016, over 1,500 mineral processing experts, academics and industry professionals from more than 60 countries will gather to explore and discuss the important issues and trends currently shaping our industry and its future. Canada last hosted the IMPC in 1982 and is proud to do so again.

About the IMPC Congress

The International Mineral Processing Congress has been in existence for more than sixty years, with the first one held in London in 1952. With 39 technical papers and 332 delegates, it was indeed an impressive start to what would become a long and successful series of world-renowned congresses. The IMPC has been a major driving force for the promotion of scientific and technical knowledge in mineral processing and extractive metallurgy across the globe, becoming the most prestigious event in its field in the world today. The congress is truly international in scope with delegates from all parts of the world deliberating and collaborating on critical issues facing the mining and mineral processing industry globally.

About the IMPC Council

The IMPC council is an elected body responsible for determining the date and venue of the IMPC congress, ensuring that high standards are maintained, establishing commissions in areas of interest to the global mineral processing community, and bestowing awards to distinguished mineral processors. impc-council.com

IMPC 2016 IS HOSTING THE 55TH ANNUAL CONFERENCE OF METALLURGISTS

INFO@IMPC2016.ORG

XXVIII | Québec City, Canada

IMPC 2016

TECHNICAL STREAMS

Characterization: Mineralogy, Geometallurgy

Process Control: Instrumentation, Modelling, Simulation

Flotation: From Chemistry to Machines

Extractive Metallurgy: Hydro and Pyrometallurgy

Comminution: AG/SAG, Crushers, HPGR, Tumbling and Stirred Mills

Physical Separation: Gravity, Magnetic, Electrostatic, Ore Sorting, Upgrading (physical and chemical)

Plant Design: Complex Ores, Integrated Flowsheets

Asset Management: Sampling, Metal Accounting, Surveys and Flowsheet Improvement

New Frontiers: Harsh Environments Including Arctic, Undersea, Space and Beyond

Environment, Recycling and Social Responsibility

Dewatering: Thickening, Filtering, Drying

SYMPOSIA

4th International Symposium on Iron Control in Hydrometallurgy

Electrometallurgy 2016

Rare Earth Elements

Lightweight Metals and Composites: Production, Processing and Applications

IMPC Commissions: Education, Mineral Processing for the Future
